

# WE NEED TO FIGHT FOR OUR WORK!

New York is getting **\$1.6 billion for broadband buildout** from the Federal and State Government.

This could be a MASSIVE investment in our jobs, our families, and the future of our union.

But where that money goes and how it's spent is up to the New York State Legislature. We need to fight for strong labor standards that make sure the right people are getting the job done... US!

Otherwise there's a real danger all that money and work could go to providers that use non-union contractors, and **leave CWA members out of this groundbreaking project!**

**The opportunity is here. But we need to fight for it!**

**TELL YOUR LEGISLATORS:** All public dollars for broadband deployment **MUST** come with strong labor standards that protect workers and promote good jobs!
